

"We Love Our Kids"

God, as we gather here to pray
We bow before you on this day

'Tis for our daughters and our sons
Who serve our country now with guns

We pray you'll bring them safely back
From fighting terror in Iraq

Thank you for their call to serve
We pray by faith you'll calm their nerves

As they go out on each patrol
Please grant them peace of mind and soul

That they might see their task complete
And fight with valor, no retreat

We love our kids and want them back
And yet we know with each attack

Some will stand and some will fall
Some will live, but yet not all

We honor all who give their life
The price of freedom; their sacrifice

We yield to you our faith and trust
Accept our losses, as we must

Help us pray for all who serve
And hold them up as they deserve

By faith, we pray all fears release
And trust you for internal peace
